## PROJECTS

### E-commerce React Application

- Developed a secure and user-friendly E-commerce React application with login, search, cart management, and checkout functionalities.
- Utilized React, JavaScript, HTML, and CSS for the front-end development.
- Implemented a robust product search feature, allowing users to find products efficiently based on keywords, categories, or filters.
- Designed an intuitive cart management system, enabling users to add, remove, and update items seamlessly during their shopping experience.

### Real-Time Collabratiionn Tool

- Developed a full-stack real-time code editor using React, Node.js, Express.js, and [Socket.io](#).
- Enabled simultaneous code collaboration and real-time synchronization for multiple users.
- Successfully deployed the application on Heroku for convenient public access.

### ReactJS Admin Dashboard

- Developed a responsive and visually appealing admin dashboard using ReactJS, incorporating modern technologies and libraries.
- Implemented React hooks, apexcharts, and motion-framer for enhanced interactivity, data visualization, and smooth animations.
- Designed multiple views for sales, revenue, expenses, and customer reviews, ensuring comprehensive insights and a seamless user experience.
